

## Orange Avenue Redevelopment Project Impacts to Historic Resources

Section 106 of the National Historic Preservation Act requires agencies to consider the effects of their projects on historic resources. Section 106 follows a four-step process:

1. **INITIATE** the process
2. **IDENTIFY** historic properties
3. **ASSESS** adverse effects
4. **RESOLVE** adverse effects

During this process, the State Historic Preservation Office (SHPO) has determined that the Orange Avenue Apartments are a significant historic resource, and the redevelopment project will have an adverse effect on the resource. THA will work with residents and SHPO to determine ways to resolve the adverse effect.

THA will discuss the adverse effect in upcoming resident meetings, and will solicit public input on potential mitigation measures. Additional information on the project, the history of the Orange Avenue Apartments, and the adverse effect can be found on the project website: [tallha.org/orange-avenue-apartments-redevelopment](http://tallha.org/orange-avenue-apartments-redevelopment).
